EXPERIENCE

Pharmacotherapy Specialist & Medication Safety Officer.

Saudi German Hospital Dubai

01/2025-Present Dubai, United Arab Emirates

- Lead medication safety and pharmacotherapy initiatives across a multi-site healthcare network (3 hospitals, 5 clinics), driving system-level standardization and governance.
- Directed hospital-wide medication safety strategy, including identification, analysis, and mitigation of medication errors, near misses, and adverse drug events.
- Designed and implemented a Medication Management Manual, consolidating 33 policies into a unified governance framework aligned with JCI and regulatory standards.
- Led medication management compliance for JCI reaccreditation, achieving zero unmet standards across all audited domains.
- Standardized dispensing, storage, and medication handling processes across all facilities, improving consistency and reducing variability in practice.
- Eliminated high-risk medication practices, including removal of concentrated electrolytes from clinical areas, aligning with international patient safety recommendations.
- Established KPI-driven performance monitoring systems for pharmacy services, supporting data-driven quality improvement initiatives.
- Delivered multidisciplinary training programs on medication safety, impacting physicians, nurses, and pharmacy staff across the organization.
- Collaborated with clinical leadership to align pharmacotherapy practices with broader patient safety and clinical governance strategies
- ensure compliance with reporting and regulatory standards.
- Deliver ongoing training and education on safe medication practices to all healthcare staff.

Team Leader, Outpatient pharmacist

Saudi German Hospital Dubai

12/2023 - 12/2024 Dubai, United Arab Emirates

- Handling all problems with patients, insurance approval, and high-cost approval issues.
- Led outpatient pharmacy operations, optimizing workflow efficiency and reducing patient waiting times.
- Managed high-cost medication processes in coordination with supply chain and insurance teams.
- Supervised and developed pharmacy staff, including training, scheduling, and performance oversight.
- Coordinated with multidisciplinary teams to enhance patient care and ensure safe medication use.
- Contributed to operational improvements and service quality initiatives within outpatient services
- arranging high-cost medications in collaboration with the supply chain department
- Lead the counters in the OP pharmacy and manage waiting time for patients.
- Coordinate with physicians, nurses, and other healthcare

Executive Summary

Pharmacotherapy Specialist and Medication Safety Leader with ~8 years of progressive experience across hospital pharmacy operations and clinical governance. Demonstrated track record in leading system-wide medication safety transformation initiatives across multi-site healthcare settings (3 hospitals and 5 clinics), aligning practices with international standards.

Member in Emirates clinical pharmacy Society (ECPS) In medication safety and quality team with Proven ability to design and implement governance frameworks, standardize pharmacotherapy processes, and lead multidisciplinary teams to improve patient safety outcomes. Successfully led medication management compliance for JCI reaccreditation with zero unmet standards, and developed organization-wide policies to strengthen clinical governance and risk management.
